

Neuhaus – Maintenance Engineer

TO

As a Maintenance Engineer at Neuhaus, you are – among other things – responsible for the smooth operation of our new state-of-the-art Carle & Montanari production line. You also play a key role in maintaining and optimizing our robotics and electromechanical installations. This includes both preventive maintenance and contributing to troubleshooting in order to ensure a smooth production process. Additionally, you are responsible for improving the production lines through technical adjustments and innovative solutions.

Your main tasks and responsibilities:

- Responsible for the maintenance and optimization of the new fully automated production line.
- Troubleshooting technical issues related to robotics, electromechanics, and automation.
- Planning preventive maintenance to avoid production downtime.
- Collaborating with technical team colleagues and contributing ideas for improvements.
- Assisting in the installation and commissioning of new machines and technologies.
- Working in a 2-shift system (early/late) from Monday to Friday.

TO BE

You have a background in electromechanics and extensive experience with robotics and automation in a production environment. In addition, you are capable of working independently and with a results-oriented mindset.

- You hold a Bachelor's or Master's degree in Electromechanics, or you have built up sufficient experience to possess equivalent knowledge and skills.
- Affinity with maintenance and troubleshooting within a production setting, with a strong focus on robotics and automation.
- Experience with Siemens PLCs, mechanics, electricity, and pneumatics.
- You are a problem-solver and have a keen eye for detail.
- You speak fluent Dutch and have a basic knowledge of French.

TO OFFER

We believe that your growth drives our success. That's why we offer an inspiring work environment full of challenges and opportunities. You'll benefit from a personalized training program that includes both internal and external learning. On top of that, we offer an attractive salary package with a range of extra benefits, including a company car, meal vouchers, hospitalisation insurance, and of course... an unlimited supply of Belgian chocolates.
